Year 3

Autumn Term 2 - November to December 2026

Teachers:
3EJ - Ms Eliza and Ms Veronika
3EM - Ms Eleanor and Ms Eva
3JD – Ms Jill and Ms Adriana
3KM - Ms Kornelia and Ms Petra

English

We will explore the exciting story of The Papaya That Spoke through our Talk for Writing approach. Children will develop their storytelling skills, expand their vocabulary and build confidence in writing their own creative stories.

Maths

Following on from last term, we will continue developing our addition and subtraction skills, gradually introducing the column method. We will then move on to multiplication and division, building our confidence and understanding of these key mathematical concepts.

Science

We will begin with an introduction to forces and magnets including push and pull examples. Students will also discover gravity and friction as types of forces. We will learn about different types of surfaces and their effects on friction. Lastly, we look at magnetism.

Topic

This term, we will explore the fascinating world of Ancient Rome, learning about Julius Caesar, the eruption of Mount Vesuvius and the destruction of Pompeii. We will also discover how the Romans used numerals and their significance.

Slovak

We will focus on identifying and dividing sounds, with particular attention to vowels / diphthongs. In writing, we will develop teamwork, accurate copying and creative writing skills. In literature, we will strengthen reading comprehension and fluent reading.

PE

Students will develop dance skills, rhythm, coordination and creative movement. They will improve ball handling and dribbling skills, focusing on ball control, hand-eye coordination, changing direction and speed through fun activities and team games.

Art

Year 3 students will explore seasonal art through winter-themed projects and festive crafts. Using a range of materials and techniques, they will develop creativity, self-expression and confidence while experimenting with colour, texture and imaginative design.

Music

Year 3 will develop ensemble singing through vocal blending, balance and expressive performance. We will practice listening and adjusting voices to others, applying contrasting dynamics and exploring how phrasing and articulation contribute to musical expression.

Year 3

Autumn Term 1 - September to October 2026

Teachers:
3EJ - Ms Eliza and Ms Veronika
3EM - Ms Eleanor and Ms Eva
3JD – Ms Jill and Ms Adriana
3KM - Ms Kornelia and Ms Petra

English

We will continue with the Read Write Inc. programme to build children's phonics skills, helping them read and write with confidence. We will enjoy exploring the engaging story The Papaya That Spoke, using it to develop comprehension, vocabulary and discussion skills.

Maths

We will begin by exploring numbers to 1000, focusing on place value, odd and even numbers, and counting in 10s and 100s. Students will then use mental strategies to add and subtract two-digit numbers with confidence and accuracy.

Science

We will begin by learning about materials and the states of matter. Students will investigate the properties of solids, liquids and gases, then explore mixtures and discover how different materials can be separated using simple methods.

Topic

In Topic, we will explore the fascinating Roman Empire, discovering how people lived and the impact it had on history. Students will learn about Roman legends, gods and goddesses, and other exciting aspects of Roman life.

Slovak

In year 3, the main objective in writing is to acquire the fundamental principles of the language system. Students become familiar with basic grammatical and linguistic rules. They make significant progress in reading and writing and in reading comprehension.

PE

Students will advance their spatial awareness and balance, lead warm-ups and body-safety routines, and refine movement mechanics by combining leaping and bounding with controlled catching and precision throwing in motion.

Art

Students will continue to explore and experiment with the Visual Elements of Art, taking inspiration from the shapes, patterns, textures and colours found in nature. They will experiment with mark-making techniques and make creative choices with increasing confidence.

Music

We will explore melody, pitch, and solfège while developing singing and performance skills. Students will discover how music can tell stories through words, sounds, movement, and expression, and begin creating and performing their own simple melodies.
