

Year 3

Autumn Term 2

How can a living museum help us share the wonders of Ancient Rome?

Why?

Ancient Rome is a fascinating and exciting historical topic for students and teachers alike! We will go on a journey of discovery into who the Romans were, how they lived and what they achieved. We will learn how the Roman Empire spread so far due to their successful army and how the Ancient Romans lived their everyday lives. We will incorporate many subjects into this topic including mapping skills in geography, myths and legends in English, and forces in science.

Science

We will begin next term with an introduction of friction as a type of force. After this, we will study closely different types of surfaces and their effects on friction. We will move towards gravity as a force whilst also learning about push and pull forces.

Mathematics

Following on from last term we will continue an emphasis learning on numbers up until 1000, counting forwards and backwards. We will also be moving towards the exciting topic of Statistical methods and chance. Followed by a more in-depth study of place value, addition and subtraction.

Slovak / SFF

This term we will focus on identifying and naming letters with distinctive characters. We will learn to divide sounds into groups, know how to write them correctly and look for them in words. The students apply language rules in written speech, not only when copying and transcribing, but also during age-appropriate language analysis of the text. They pay attention to the development of communication skills and emphasize spoken language.

Art

We are going to continue learning about the Visual Elements and create props for our Christmas performance.

Music

We are going to learn how to keep a steady beat using songs for our Christmas performance

Forest School

This term in forest school we will get a perspective of what the forest looks and feels like during the winter.

PSHE

In PSHE this term we will be focusing a lot on how we can look after ourselves, focusing on qualities such as; sleep, exercise and mental health.

English

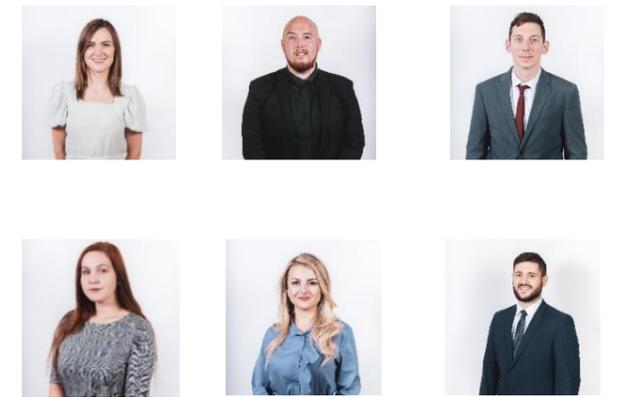

We will be continuing with the Read Write Inc. programme to develop children's phonics knowledge in order to read and write with confidence. We will also continue to supplement these lessons with spellings and grammar lessons sprinkled throughout the term.

Physical Education

This term, we will be participating in a wide range of skills such as catching, throwing, evasion, dance and gymnastics. 3KM and 3SM will be going swimming until Christmas this term. 3LH will be going after Christmas.

Topic/PBL

In our Topic and PBL lessons we will be learning about the wonderfully interesting Roman Empire! We will be using these efforts to create a living museum to share with the students and staff at CIS.

Teachers: Laura Hickey & Jana Cihálová, Stefen Myles & Michaela Suváková, Kieran Macken & Balázs Bitter

7 Weeks: Oct-Dec 2022
